

**Vessel Specifications:
Displacement Hull Form**

	Metric	Imperial
Hull Length	9	29.7
BEAM	3	9.9
DRAFT	1	3.3
Fuel	800	208
Water	100	26
Waste	100	0
kW/knots	104/24	

Key features of the design:

- Trailer for off-season storage
- Easy - tow to fishing tournaments
- Light weight composite panel construction
- Displacement hull form for smaller engines
- Twin 50 to 75 hp engines for economical building, and operation
- Smaller engines less weight in vessel – easy to tow
- Design based on professional advise from long time charter operators
- Fold down tuna tower
- Large fish holds
- Toilet
- Bunk
- Live bait
- Freezer
- Ice Box
- Game Chair

Overview:

The “Yellowfin-Cat” is an expert level construction project. The vessel requires a sound knowledge of composite boat building procedures.

The construction method using lightweight composite panels will allow you to tow this boat behind any small car. A pre-made kitset can be purchased through one of our international dealers or you may make the kitset yourself. We have included CNC files and printable templates on the plan CD.

Estimated Kitset assembly time is 1200 hours.

There are 18 detailed drawings for the shell assembly.

No Lofting is required.

We include CNC files for templates of all parts.

Payment Method:

- All payment methods are made by PayPal account.
- Cost for the plans & CNC files are \$5500.00 USD
- Plans will be shipped by airmail on a CD – not emailed
- Purchase carefully, as we do not offer refunds.

License Agreement:

- The copyright of the design belongs to East Cape Marine Ltd.
- The purchaser of the plans is licensed to build one vessel only from the plans.
- A royalty of \$5500.00 USD is payable to the design for every vessel made from the set of plans.
- The purchaser agrees not to reproduce, copy, distribute, re-brand, sell, and give away, any information supplied in the set of plans purchased. It is the purchaser's responsibility to keep safe all design information at all times.

Support:

- Support is available by e-mail.
- Each plan has a unique identification number attached.
- You will use this number to access help files from East Cape Marine Ltd.
- Our updates to the design will be e-mail to you at no charge
- A charge may apply to any further design information requested.
